SpringerOpen

Giving authors in all areas of science the opportunity to publish open access

- Easy way to fully comply with open access mandates
- Author retains copyright
- Open access with Springer quality and speed in all areas of science
Welcome SpringerOpen Authors

Authors retain copyright under the Creative Commons Attribution License
Articles freely available online and can be freely redistributed and reused
Easy to use submission system allows the upload of manuscripts in various formats as well as multimedia and datasets. Personalized website allows users to track manuscripts they are working on as authors, editors or reviewers and even pause and return to task later
Authors can supply information about payment by invoice or credit card or indicate their eligibility for waivers
Articles by authors from a member institution enjoy centralized payment and/or a discounted fee as well as promotion on a special member page
Use of blogs, tweets, and social networking for promotion and visibility

Announcing the first of the SpringerOpen publications...

- Environmental Sciences Europe
  a SpringerOpen Journal

- Health Economics Review
  a SpringerOpen Journal

- Security and Intelligence Informatics
  a SpringerOpen Journal

- Global Energy
  a SpringerOpen Journal

- Journal of Mathematical Neuroscience
  a SpringerOpen Journal

- Applied Microbiology and Biotechnology Express
  a SpringerOpen Journal

- Journal of Mathematics in Industry
  a SpringerOpen Journal

- Planetary Science
  a SpringerOpen Journal

- Journal of Remanufacturing
  a SpringerOpen Journal

- Gold Bulletin
  a SpringerOpen Journal

- Bulletin of Mathematical Sciences
  a SpringerOpen Journal

- Psychology and Well-Being Research
  a SpringerOpen Journal
SpringerOpen Features

- Rigorous peer review
- E-only and continuous publication
- No page budgets or restrictions on color, multi-media, or other supplemental elements
- Considered by ISI and other abstracting & indexing services; the services apply the same standards as they do for traditional journals
- Thumbnails of additional files (e.g. embedded movies) shown in the article
- Quick navigation in article HTML | XML can be downloaded
- See “most viewed” articles and articles citing an article

SpringerOpen articles are also freely available at Springer’s award-winning platform, SpringerLink. For more information, visit springerlink.com.

Springer’s Open Access Track Record

Over the past decade, the scientific community—including librarians, researchers, authors, educators and publishers—has been discussing the role of open access. Springer is proud to be a driving force in these discussions and we are proud of our track record.

2004

Springer Open Choice introduced
Giving authors the choice of how to publish

2007+

Pioneering Institutional Experiments
Landmark support and agreements worldwide, including Dutch university libraries, Howard Hughes Medical Institute, Max-Planck-Gesellschaft and University of California

2008

Reacting to the NIH debate
Publishing agreement compliant with NIH Public Access Policy

2008

Becoming the largest open access publisher
Springer acquires BioMed Central, the leading global open access publisher

2009

Driving collaboration in open access
Engagement in publicly funded SOAP and PEER projects

2010

Setting the bar high
SpringerOpen launches
About Springer
Springer is one of the leading international scientific publishing companies and was founded in 1842. It is the largest science, technology and medicine (STM) book publisher in the world. Through partnerships with more than 300 academic associations and professional societies worldwide, the company publishes more than 1,200 journals and 3,500 new book titles each year, in addition to offering an array of online services such as SpringerLink and Zentralblatt Math. Springer is part of the specialist publishing group Springer Science+Business Media, which owns 70 publishing companies in 19 countries throughout the world and employs some 5,000 people. It publishes 1,450 journals and over 5,000 new books every year.

About Our Partner
SpringerOpen complements the successful portfolio of open access journals of BioMed Central (acquired by Springer in 2008). BioMed Central will continue to grow its portfolio of more than 200 open access journals while providing its expertise and infrastructure to SpringerOpen. Furthermore, Springer and BioMed Central are happy to extend the journal offerings covered by the more than 300 institutional open access memberships arrangements that are currently in place.

SpringerOpen makes it easier than ever for authors to comply with open access mandates, retain copyright and benefit from Springer’s trusted brand.
